Generating Sustainable Value.

Purpose
To generate sustainable returns from a diversified portfolio of renewables infrastructure that contribute towards a zero-carbon future

Introduction
The Renewables Infrastructure Group Limited (“TRIG”): an investment company focused primarily on wind and solar energy infrastructure in the UK and Europe

Targeting total dividends for 2020 of 6.76p / share in four equal quarterly instalments

Investment Portfolio
Investments in over 70 renewable energy generation projects with 1.7GW of capacity

Long-term project revenues with inflation linkage via regulated incentives and exposure to energy prices

Geographic diversification: weather patterns, regulatory regimes and power markets (see segmentation data on page 2)

Objectives
TRIG invests principally in a diversified range of operational renewable energy infrastructure assets

It seeks to provide an attractive, long-term income-based return with a positive correlation to inflation

It aims to increase the portfolio’s scale and diversification through further acquisitions

TRIG’s Environmental, Social and Governance objectives are to: mitigate climate change, preserve the natural environment, positively impact the communities in which TRIG works and to maintain ethics and integrity in governance

Investment Policy
Focus on the UK (representing not less than 35% of the portfolio upon investment) and on other parts of Europe (e.g. France, Germany, Scandinavia and Ireland)

Focus on wind and solar; other technologies (e.g. storage, demand-side projects) may represent up to 20% of portfolio value

Development or construction limit: 15% of portfolio value. Single asset limit: 20% of portfolio value

Limit on project-level non-recourse debt: 50% of gross portfolio value; limit on short-term group-level debt (principally for acquisitions): 30% of portfolio equity value
