Introduction

The Renewables Infrastructure Group Limited ("TRIG"): an investment company focused primarily on **wind and solar energy infrastructure in the UK and Northern Europe**

Investment Portfolio

Interests in **56 renewable energy generation projects** (27 onshore wind, 28 solar PV and one battery storage project) with **774 MW of capacity**

Long-term project revenues with inflation linkage via regulated incentives and exposure to energy prices

Geographic diversification: weather patterns, regulatory regimes and power markets (see segmentation data on page 2)

Investment Objectives²

Invest principally in a **diversified range of operational renewable energy infrastructure assets**

Seek to provide an **attractive, long-term income-based return with a positive correlation to inflation**

Target **total dividends for 2017 of 6.40p / share** in four equal quarterly instalments

Aim to **increase the portfolio's scale and diversification** through further acquisitions

Investment Policy

Focus on the UK (representing not less than 50% of the portfolio upon investment) **and on other parts of Northern Europe** (e.g. France, Germany, Scandinavia and Ireland)

Focus on onshore wind and solar PV; other technologies (e.g. offshore wind, storage, demand-side projects) may represent up to 20% of portfolio value

Development or construction limit: 15% of portfolio value

Single asset limit: 20% of portfolio value

Limit on project-level non-recourse debt: 50% of gross portfolio value; limit on short-term group-level debt (principally for acquisitions): 30% of portfolio equity value

(see TRIG's website (www.trig-ltd.com) for the full Investment Policy)

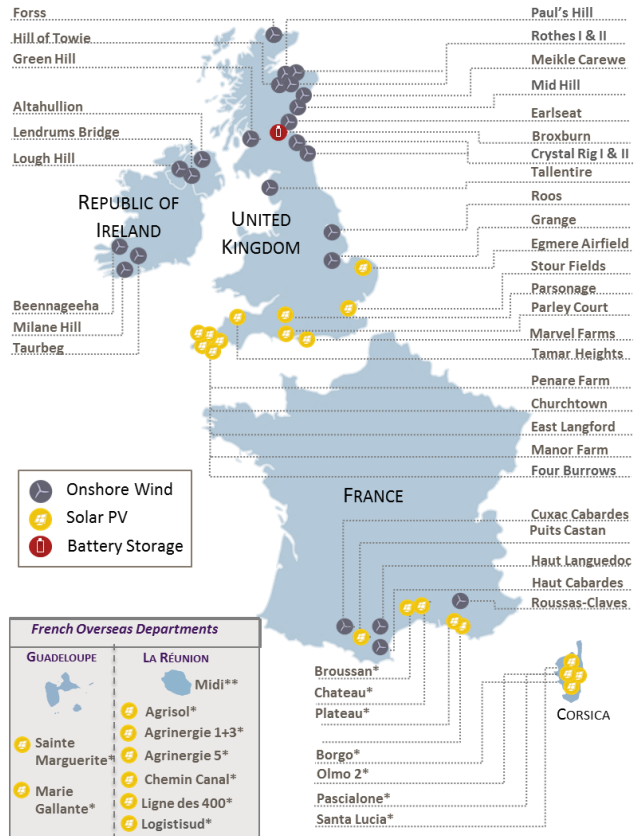

Portfolio Segmentation*

Note: Northern Ireland and the Republic of Ireland together operate a Single Electricity Market, distinct from the power market operating in Great Britain.

*By Investment Value at 30 June 2017 plus consideration for asset acquired since 30 June 2017 (Total = £972 million)

1. Based on target dividend for 2017 and share price at 29 September 2017.

2. The indicated dividends or returns are not profit forecasts and there can be no assurance that these can be achieved and should not be seen as an indication of the Company's expected or actual results or returns. The actual outcome will, inter alia, depend on factors such as wholesale power prices, the regulatory environment, discount rates applicable to renewables projects and inflation rates, each of which is a key factor in the returns from the Company's portfolio.

The ordinary shares are eligible for inclusion in PEPs and ISAs (subject to applicable subscription limits) provided that they have been acquired by purchase in the market and they are permissible assets for SIPPs.
