## Generating Sustainable Value.

### Purpose

To generate sustainable returns from a diversified portfolio of renewables infrastructure that contribute towards a zero-carbon future

### Introduction

The Renewables Infrastructure Group Limited ("TRIG"): an investment company focused primarily on wind and solar energy infrastructure in the UK and Europe

Targeting total dividends for 2019 of 6.64p / share in four equal quarterly instalments<sup>1</sup>

### Investment Portfolio

Investments in over 70 renewable energy generation projects with 1.6GW of capacity

Long-term project revenues with inflation linkage via regulated incentives and exposure to energy prices

Geographic diversification: weather patterns, regulatory regimes and power markets (see segmentation data on page 2)

### Investment Objectives

Invest principally in a diversified range of operational renewable energy infrastructure assets

Seek to provide an attractive, long-term income-based return with a positive correlation to inflation

Aim to increase the portfolio's scale and diversification through further acquisitions

### Investment Policy

Focus on the UK (representing not less than 35% of the portfolio upon investment) and on other parts of Europe (e.g. France, Germany, Scandinavia and Ireland)

Focus on wind and solar PV; other technologies (e.g. storage, demand-side projects) may represent up to 20% of portfolio value

Development or construction limit: 15% of portfolio value. Single asset limit: 20% of portfolio value

Limit on project-level non-recourse debt: 50% of gross portfolio value; limit on short-term group-level debt (principally for acquisitions): 30% of portfolio equity value

See TRIG's website [trig-ltd.com](http://trig-ltd.com) for the full Investment Policy.

- The indicated dividends or returns are not profit forecasts and there can be no assurance that these can be achieved. They should not be seen as an indication of the Company's expected or actual results. The actual outcome will, inter alia, depend on factors such as wholesale power prices, the regulatory environment, portfolio electricity production, discount rates applicable to renewables projects and inflation rates, each of which is a key factor in the returns from the Company's portfolio.
- Based on target dividend for 2019 and share price at 29 November 2019.

The ordinary shares are eligible for inclusion in PEPs and ISAs (subject to applicable subscription limits) provided that they have been acquired by purchase in the market and they are permissible assets for SIPPs.
