

AeroUp installation works at Roos, England

TRIG's purpose is to create shareholder value from a portfolio of renewable energy generation and supporting infrastructure, contributing towards a cleaner and more secure future.

TRIG seeks to deliver resilient income and attractive total returns

- Balanced portfolio**
A 2.8GW diversified portfolio of renewables infrastructure investments.
- Responsible investment**
Experienced management team and robust investment framework.
Disciplined approach to capital allocation.
- Operational excellence**
Active asset management to enhance value.
Cognisant of ESG opportunities and risks.

Our financial and risk management objectives

Deliver long-term, resilient dividends

Increase portfolio capital value through active management

Enhance long-term growth by reinvesting surplus cash

Diversify risk across markets and technologies

Maintain resilience through prudent financial management

Ongoing Charges Ratio

A diverse investment portfolio³

TRIG owns a large, diversified portfolio of renewable energy investments, providing investment exposure to established renewables technologies. The revenues of the Company's portfolio are correlated to inflation both through subsidies and exposure to energy prices. Disciplined debt management ensures that the portfolio has minimal cash flow exposure to changes in interest rates or refinancing risk. TRIG's Investment Policy can be found on the Company's website here

*Table does not cast due to rounding

1 The 2024 target represents a 6.6% dividend yield when referenced to the share price at 31 December 2023.

2 Based on share price plus dividends paid. Calculation shown within the Alternative Performance Measures table on page 53 of the 2023 Annual Report.

3 Segmentation by portfolio value as at 31 December 2023 on a fully committed basis.

4 Northern Ireland and the Republic of Ireland form a Single Electricity Market, distinct from that operating in Great Britain.

5 Scottish ROC projects represent half of the 24% of the portfolio in Scotland.

6 Top ten largest assets as at 31 December 2023 on a committed basis. Colours indicate country in which each asset is located.

Annualised Net Asset Value Return (NAV growth and dividends) of 8.4% since IPO

PAST PERFORMANCE IS NOT A RELIABLE INDICATOR OF FUTURE RESULTS. CAPITAL AND INCOME AT RISK.

Key risks

The Company's principal risks are monitored by the Board and the Managers and mitigated where practicable.

TRIG continues to have three enduring principal risks with a high residual impact which are:

Political/regulatory risk	Power prices	Production performance
----------------------------------	---------------------	-------------------------------

Additionally, since the 2022 Annual Report, counterparty credit has become an elevated principal risk with a high residual impact due to the current macro environment.

These and other risks are considered and expanded on in the Risk and Risk Management section of the 2023 Annual Report.

Investing in the energy transition

A £10,000 investment in TRIG⁷ contributes to mitigating climate change through generation capacity that can:

7
Power 7 homes with clean electricity

8
Avoid 8 tonnes of CO₂ emissions annually

Our sustainability pillars

Climate – Mitigate adverse climate change

6TWh of renewable electricity generated in 2023

Communities – Positively impact the communities we work in

42 community funds within the portfolio

Environment – Preserve our natural environment

38 Active Environmental Management projects within the portfolio

Governance – Maintain ethics and integrity in governance

0.09 7-day Lost Time Accident Frequency Rate ("LTAFR")⁸

A leading global independent renewable energy company

Operational oversight of the portfolio

40+ years' experience in renewables

24GW+ developed and/or constructed

41GW of renewable assets supported

7 Based on the portfolio as at 31 December 2023 and once projects in construction are complete. A £10,000 investment is defined as a £10,000 share of TRIG's market cap of £2.8bn as at 31 December 2023. Based on the IFR Approach to GHG Accounting.

8 LTAFR is a safety at work metric which measures the number of personnel injured and unable to perform their normal duties for seven days or more, for each hundred thousand hours worked.

9 \$14bn equity under management (USD)-uses five-year average FX as at 30 September 2023 of GBP/USD of 1.2944; EUR/USD 1.1291. EUM is USD 13.597m.

10 In the 2023 Principles for Responsible Investment ("PRI") assessment, InfraRed achieved a 5-star rating for the Policy Governance and Strategy and Infrastructure and a 4-star rating for the newly created Confidence Building Measures. Please find InfraRed's report available for download on our website here: <https://www.ircp.com/sustainability/>
